

Traveling Technician Service

Call 1-800 AT-ELCAN!

You may be familiar with many of Virto/Elcan and Minox/Elcan's services. We provide tests, toll processing, machine sales, machine rentals, screen re-meshing, laboratory work and parts sales.

Elcan Industries has come up with a new way to make repairs and maintenance more convenient for our customers. We now offer an on-site technician service that comes to you! We have our most knowledgeable technicians available to come to your plant when needed.

Our Technician Services includes:

- preventative maintenance
- bearing rebuilds and repairs
- fine tuning for ultimate efficiencies
- operational improvements
- Maintenance and mechanical seminars for all levels

Our dedicated technicians are experts in our advanced high performance screening technology and can make you an expert as well. This expertise includes over 36 years of experience with tumbler screeners. Our technicians are the only authorized Kroosh and Virto mechanics in North America. Please try and book at least two weeks.
